

before using this product read this user manual carefuly and keed for reference

Introduction

Effective wavelengths of near infrared light therapy include 750 nm to 1,400 nm. The wavelength of the near infrared is more beneficial in treating deep wounds and relieving muscle and joint pain. 850nm and 980 nm are common for near infrared light therapy.

DGYAO adopts 484pcs 880 nm infrared led lights (invisible to naked light) and 484pcs 660 nm red led lights. The combination of red and infrared light increase blood circulation by thermal effect to provide pain relief.

How does Infrared light work?

The NIR is the shortest wavelength and the most penetrating infrared ray, which can penetrate 5 to 10 mm of the human body tissues. Infrared light can penetrate the skin, directly to the muscles, subcutaneous tissue which helps to accelerate blood circulation, increase metabolism, relieve pain and increase muscle relaxation, resulting in massage effects. Infrared treats the disease at different levels because of mobilize the body's own disease-resistant ability.

Function

DGYAO Infrared & Red Light Therapy Device Penetrats muscles and joints effectively to improve blood circulation and relieve pain.

Apply to the following symptoms:

- ★Spinal Pain **★**Bone Breaks

- ★Iliotibial band syndrome

★Fibromyalgia

★Nerve Pain

Red & infrared light therapy is considered to be a substance absorbed by the body. Penetrate the tissue! Fill the body with energy. Enhance immunity. Improve the life quality.

- *Relax of muscle spasms
- *Promote blood circulation
- *Natural, non-invasivem and drug free skin rejuvenation
- *Easily self treatment at home
- *Relieve back 、low back 、shoulder and joint pain and inflammation
- *Soothes the nervous system
- *Promotes wound and tissue healing
- *Prevents muscle from soreness & fatigue
- *Relax & sleep better

Product description

Infrared light Pad x4

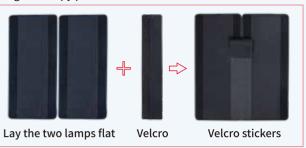

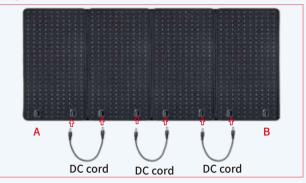

Connection instructions

1.Light therapy pads connection method

The back of the four light therapy pads is assembled with three velcro. Align the two light therapy pads, paste a velcro on the back of the light therapy pad, and paste the four light therapy pads in order.

2. Light therapy pads and DC cord connection

DC cord connection. Contains 3 short DC cords and 1 long DC cord. The short DC cord connects two light therapy pads in series, leaving two connecting holes on both sides for connecting the long DC cord.

3.DC cord and timer connection

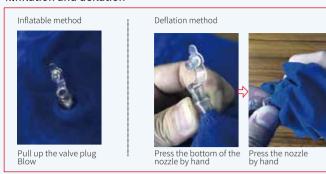

The timer connectes the power adapter.

4.Inflation and deflation

Inflatable pillows need to be inflated before use. Clean the air nozzle, pinch the air nozzle firmly to open the intake valve, and blow air with the mouth. Blow enough air in, release the inflation nozzle, and the valve will automatically close without leaking.

Instructions for use

1. Place light therapy pads on a clean and tidy hard surface, connect accessories and power supply, adjust the inflatable pillow. Under head turn on the timer switch to make the light therapy pads work. Lie on the light therapy pads, relax and enjoy red & infrared light therapy.

2. AUTO SHUT-OFF TIMER (20 MINUTES). Do NOT exceed 40 minutes of use in one therapy session.

⚠ Light therapy pads Not foldable.

Do not use on uneven surfaces.

Use instruction right / wrong

wrong

right

Clean and storage

1.Clean

Wipe the surface with a damp cloth . Not washable. Do not use alcohol or other corrosive cleaning agents to avoid corroding the surface and damaging internal parts.

2.storage

Please disconnect the light therapy pads from the power supply, when you are not using for a long time. Remove the adapter, timer, and DC cord. Clean light therapy pads for storage. Remove the three velcro tapes on the back, put the four light therapy pads face to face, and put them into the box. Do not fold light therapy pads vertically.
